

28 NEW ROOMS WITH PRIVATE NATURAL POOLS

Thinking of visiting the new Restaurang ÄNG and Ästad Vingård? Soon you can spend the night at Ästad in brand new rooms with your own natural pool, sauna, and bathing dock.

Ästad Vingård has begun the construction of 28 new hotel rooms where each room has its own natural pool, sauna, and bathing dock in the room. The new rooms are at the center of the vineyard with proximity to Sinnenas Spa, the new Restaurant ÄNG and the vineyard.

- It feels great to be able to offer something entirely new for our guests. All hotel rooms at Ästad Vingård currently have a private sauna, but with these new rooms, the guest will also get his/her own bathing dock and natural pool. Perfect for a morning dip before breakfast, says Daniel Carlsson, CEO of Ästad Vingård.

The groundwork for the new rooms has already begun, and the first rooms are expected to open in 2023.

- Every construction step that does not need to take place on-site is done remotely. The rooms will be built in Tvååker and assembled as modules so that we can be as discreet as possible for our guests, says Daniel.
